

bridges  connect  
share  
achieve  
*by* GLOBAL

Our task was to develop an environment for collaborative teamwork which would facilitate the connection of people and ideas in a corporate setting. To design a platform which would serve as a catalyst inviting people to engage and co-create.

At its core, **bridges** focuses on linear, back-2-back table assemblies, and it's expanded toolbox makes it ideal for a multitude of workplace solutions – it can even be integrated with system furniture.

Choose primary worksurfaces,  
data and power services, and  
define the purpose of each  
workstation by placement  
of adjacent components like  
cabinets, shelves and accessories.

VLAD MULLER – R & D DIRECTOR

CONNECT

**bridges** allows you to mix it up, throw ideas around, be mobile, and connect the dots in different ways.

A group of diverse people, including a man in a white shirt, a woman in a blue shirt, a woman in a tan shirt, and a woman with red hair, are gathered around a table, looking at something off-camera. The word "SHARE" is overlaid in large, white, sans-serif capital letters across the center of the image. The letter 'H' has a blue vertical bar on its left side and a green vertical bar on its right side. The background is slightly blurred, showing a wall with some dark, abstract shapes.

SHARE

**bridges** lets you plug into your own personalized space. It's like being part of your own little hive where everyone is able to contribute, share, and move the project forward.

A photograph of three business professionals in a meeting. A man in a green shirt is seated at a table, looking at a laptop. Two women, one in a grey blazer and one in a tan blouse, are leaning over him, looking at the laptop screen. The background is a wall with orange and yellow horizontal stripes. The word "ACHIEVE" is overlaid in large, white, sans-serif capital letters across the center of the image. The letter 'H' has a blue and green gradient, and the letter 'I' has a green and yellow gradient.
